

SS&C PRESENTS: SINGULARITY

Automating the full investment lifecycle for all of your assets through a single modern user-friendly platform.

Discover how the right technology partner can help you achieve your strategic objectives.

Accuracy & confidence

Optimize insurance investment operations with award-winning scalable technology.

Expand investment opportunities

Diversify into private markets and alternatives without limitations or operational delays.

Improve efficiency & risk management

Drive data accuracy and transparency while managing risk more holistically, for sound investment decisions.

Singularity combines SS&C's comprehensive global financial expertise with today's intelligent automation technology. You benefit from a more full service offering backed by experienced insurance experts.

Cut Operating Costs

Streamline processes, eliminate IT infrastructure, reduce operational staffing requirements.

Streamlined Financial & Regulatory Reporting

Review and production of monthly close packages and quarterly and annual regulatory filing schedules.

Increase Productivity

Intelligent automation accelerates processes and raises productivity.

Secure & Reliable Access to Data

Hosting facilities meet highest industry security standards and audit certifications.
