

EVOLV FINANCE HUB

SS&C's advanced software tool, the EVOLV Finance Hub, is designed to significantly enhance your bank's finance department's operations. The Hub empowers regional and community banks by providing access to features typically reserved for larger institutions, streamlining financial processes, improving accuracy, and reducing operational costs. With real-time data analytics, automated reporting, and predictive insights, your finance team is equipped to make informed decisions swiftly and efficiently.

By minimizing manual errors it fosters a seamless, integrated financial ecosystem that supports growth and ensures compliance with regulatory standards. Elevate your finance operations with the EVOLV Finance Hub and maintain a competitive edge in the banking industry.

Quiets the data noise:

Seamlessly consolidate financial data from across the organization into a finance-aligned platform

Rock-solid data integrity:

- Automate reconciliation to the general ledger
- Centralize data governance
- Comply with regulatory requirements confidently

Unlock data-driven insights for the whole bank:

- Make more informed strategic decisions through better analytics
- Improve Risk Management
- Boost your bank's competitiveness and ability to serve your customers

Make every day count:

- Update KPIs daily across all asset types
- Streamline accounting close process, enable daily transaction processing and journalization
- Manage your team's work through workflow tools and real-time dashboards
- Liberate your weekends—perform tasks throughout the month
